

# If we don't fence in the Aberdare forest now;

## this is what we'll be drinking in the near future.

*With the constant threat of illegal loggers, the Aberdares could be all but bare within a decade - a fact that has frightening consequences.*

*As it's Nairobi's only source of water, we should be alarmed.*

*So too should 6 million other Kenyans whose livelihood and survival depends on water from the Aberdares.*

*By fencing in the whole forest, we'll keep the loggers out and the wildlife in.*

*We've already build 160km of electrified fence; now we need your help to build the remaining 150kms.*

*A contribution of 1,400/- will buy one metre of electrified fence and 400/- buys a post. It's not a huge sum to help secure our future water supply and economic stability.*

*Contributions of any size will be greatly appreciated and put to immediate use. These can be made to the Nation Media Group - Aberdare Forest Fund.*

Contributions are payable to the Nation Media Group -  
Aberdare Forest Fund, Standard Chartered Account  
No: 0106003129101 C/o The Nation Media Group,  
PO Box 49010 GPO Nairobi 00100.
